

"Service Above Self"

## BUTLER AM ROTARY CLUB

---

Post Office Box 2434, Butler PA 16003-2434

November, 2011

**He's twenty six, and he works so hard—for so little. Some days he wonders how he'll ever make enough to cover his basic needs, rent, car payment, food and *the life-saving insulin he has needed since the age of fourteen.* Then he has to make a decision. *For a month and a half he goes without the insulin, because he just can't afford it anymore.***

The Community Health Clinic of Butler County treats patients like this young man for no cost. By providing his insulin and diabetic education, the Clinic gives him the lifeline he needs to maintain his health and enable him to continue to be a working, productive member of our community.

Over the last four years, the Butler A.M. Rotary Club has raised over \$40,000.00 to help the Community Health Clinic of Butler County continue to purchase diabetic and dental supplies and provide diabetic education services to the members of our community who are economically eligible and uninsured. These are the "working poor" who cannot afford the cost of health insurance.

On Saturday, February 4, 2012, we are sponsoring our annual "Sweetheart Gala" at the Butler Country Club. ***We are asking for your support in one of four ways: become an event sponsor, donate an auction prize, purchase tickets and attend, or make a cash donation.***

Please take the time to review the attached Sponsorship Opportunities and choose the option which will be your means of supporting the health and welfare of your community neighbors-- the patients of the Community Health Clinic of Butler County.

Sincerely

Sweetheart Gala Committee
